REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the instantly claimed invention. There is no teaching in the art to have the instantly claimed nanorod and the processing. There are no teachings in the art to have one part of the nanorod being hydrophilic and hydrophobic. The art does teach having the nanorod one way or the other but not both at the same time. There is no teaching in the art to show the process as is claimed. The prior art further gives no motivation or reasoning to one of ordinary skill in the art to modify the prior art nanorods and processing to arrive at the instant claims. There is no suggestion that the nanorod can be both at the same time. There is no suggestion or reasoning to modify the processes and use the properties of the nanorod as claimed in order to create the self-assembly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert M. Kunemund whose telephone number is 571-272-1464. The examiner can normally be reached on 8 hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on 571-272-1166. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
